Revision of ceiling price on account of the GST

The National Pharmaceutical Pricing Authority in its 46th meeting held on 08.06.2017 has decided to notify ceiling prices of scheduled formulations, exclusive of applicable GST rates, after the GST rates are notified by the government.

NPPA has received some representations stating that ceiling price of few formulations which are exempt from excise duty need not be revised.

Accordingly, NPPA has requested to provide the list of such scheduled formulations, with excise duty exemption along with the relevant excise duty notifications applicable as on 31st August,2015.
